

Programming Assignment 3

File name: p3

Vue Thao

03/08/2023

Files worked on: gibberish.cup, test.gibberish, ast.java, text.exp

How to invoke:

- log into a CS Dept. Linux machine and scp the whole file p3 into a directory in Linux.
- Run make and then make test, when working properly what should be displayed should

be this:

```
[vue@snare-09] (154)$ make test
java -cp ./deps:. P3 test.gibberish test.out
program parsed correctly.
[vue@snare-09] (155)$
```

- To check if the given output is correct, open the test.out file and compare it to the test.exp file.
